PHOTOGRAPHIC.

Vaughan's
PHOTOGRAPHIC GALLERY,
Government Street,
(ROOMS:—OVER THE VICTORIA THEATRE.)

THIS ESTABLISHMENT, FAVORably known to the residents of Victoria for some years past, has been improved so as to possess increased facilities for the production of perfect Photographs

The proprietor, J. W. Vaughan, having recently associated with him Mr. Geo. H. Brown, an experienced Photographic Artist, formerly connected with Brady's extensive Photographic Galleries of New York and Washington, D. S., and recently from New Orleans, La., is now prepared to execute Photographic Pictures of larger size and superior character to any heretofore done in Victoria.

The favorite Carte de Visite Photograph will hereafter be produced at this gallery in unsurpassed excellency of style.

Ambrotypes, Melainotypes, etc., executed, of various sizes and styles.

An assortment of Cases of improved and attractive patterns always on hand.

Maps, Drawings, Paintings, Engravings, Models, Statuary, &c., copied in superior style. Views of Public Buildings, Stores, Family Residences, Steamboats and every description of water craft.

No efforts will be spared at this gallery in the successful accomplishment of work.

THE BRITISH COLONIST

Tuesday Morning, Sept. 13, 1864.

To Advertisers & the Public.

THE DAILY BRITISH COLONIST, published every morning (Sundays excepted), is the largest and most widely circulated journal in Her Majesty's Possessions on the Pacific.

Resident Subscribers may have the same left at their residence at 25 cents per week, by furnishing their address at the Office of Publication.

THE WEEKLY BRITISH COLONIST, published every Tuesday, will be mailed or left at the residence of Subscribers, ready for mailing, at 25 cents per week, payable to the carrier.

JOB PRINTING.

THE BRITISH COLONIST PUBLISHING COMPANY having received a large addition to their stock of new and beautiful Jobbing type, will execute orders to any extent with neatness and despatch, at a slight advance on San Francisco prices.

THE OPENING OF THE LEGISLATURE.

The two Houses of Legislature were formally opened yesterday by His Excellency Governor Kennedy. The speech was short, but sufficiently long to show that His Excellency did not call the House together this time for a speciality, but to perform the ordinary business of a session. The subjects embraced were union of the colonies, education of the children of the poorer classes, the relations between the white population and the Indian tribes, the Incorporation of the city, postal communication, and the estimates. There are other important topics, of course, besides these, which merit the attention of the Assembly, but a Governor's speech is not supposed to deal with every question that requires Legislative action. It is sufficient for us to know that His Excellency is a man of progressive principles, and willing to co-operate with the Assembly "in all measures calculated to promote the public good, and the prosperity of the people."

Now that the House has entered upon its regular session, we hope that no time will be lost in carrying through some of the most urgent measures. Those bills which have already had such ample discussion—at least in their general principles—such as the Incorporation bill, the Education bill and the Barrister's bill, should be pushed through the House with despatch. That Mr. DeCosmos has taken up the Incorporation bill gives us some hope that the measure will not fail for lack of energy. We only hope that it will show an avoidance of the blunders of the past, and face legal scrutiny with the calm consciousness of invulnerability. The old bill has been much too luxurious for our population. We have had salaried officers sufficient to transact the business of a town of fifty thousand inhabitants. Let the members of Assembly keep economy in view, and restrain the expenditure of the public money; for if there is one thing more than another for which municipal bodies are famous it is extravagance in their number of paid officials. This bill should become law before the present month expires. It is urgent, and nothing but downright laziness or interminable twaddle in Committee of the Whole will extend its period of "incubation" beyond this specified time. The same might be stated of the Education question; for the subject has been so thoroughly discussed inside the House and out of it, that there is little more to say. The public mind is all but unanimous for establishing non-sectarian free schools, and all that is required is a little energy displayed by the originator of the bill. The motion made by Mr. DeCosmos for the appointment of a barrister to assist the members in drawing up bills, is one which we hope to see adopted at once. It has been a want long felt; for in a House of Assembly like ours it was not to be expected that the members would, generally speaking, be fit to draw up measures in a strictly legal form, even if they had time to devote to the task. The consequence is that few members attempt to bring in a bill at all.

The Small Debts Bill, which Mr. Dennes has undertaken to introduce, will, we hope, receive more serious attention than hitherto. There is not a person in business who does not see the necessity of some change being made in the present legal recourse to collect small debts. The length of time which is now allowed to intervene before a creditor can obtain judgment is highly injurious to general business, and affords something like a premium on dishonesty. The same evils were felt in even an intensified degree some time ago in one of the Australian colonies, and the remedy, which proved an effectual one, came in the economic shape of a small debts court held by the stipendiary magistrate once a week. Some such change might be readily adopted here, without entailing a farthing's additional expense, and with the desirable result of relieving the court across James Bay of much of its present pressure.

Altogether we think the House has commenced well, and that His Excellency has brought forward subjects which demand the serious attention of both branches of the Legislature. There is one item in the Governor's speech which gives us grounds to hope that the estimates will be dealt with more constitutionally than has been the custom of the Government heretofore. We have often in Vancouver Island had the rather uninteresting task of voting money after it had been spent by the Executive. Governor Kennedy wisely determines that the authority shall be first granted by the people. We are progressing evidently. In a little time we sincerely believe that the Legislative Assembly will be in the full enjoyment of all its monetary privileges, and that the most constitutional grumbler will feel that he is merely fighting with the windmills.

HO! FOR SOOKE.

MINERS.

THE SHORTEST AND BEST ROAD to the Sooke Mines is via Esquimalt, saving to the traveler the great distance of FOUR MILES travel, and the easiest road to travel. Try it. Miners traveling to Sooke can at all times find a ferry boat at the Steamboat Exchange Hotel, at Esquimalt, on the one side, and a ferry-boat at Judge Cameron's, Belmont, on the other side of the harbor. Also in connection with the ferry, there will start from the Steamboat Exchange Hotel an Express Stage for the further accommodation of the traveling public.

SOOKE CITY.

A SECTION OF GROUND LOT NO. 10 situated on the N. E. slope of Sooke Harbor has been selected for a Town Site.

The plot thus chosen is admirably adapted for the purpose, the ground being level and the water front deep enough for any vessel.

The shortest road can be made from this point to the mines. The country through which the road will run is void of swamps and ravines, and interspersed with fine prairies suitable for agricultural purposes.

A Wharf is being constructed which will be sufficiently advanced in about five days for the reception of steamers and other vessels.

The trail is now being cut on a line leading from the Town Site direct to the mines and a pack train will be put on at once.

The TITLE to the above Town Site is direct from the Government.

Liberal arrangements can be made for immediate possession by those who propose making permanent improvements, erecting Stores, Restaurants, etc.

It would therefore be advisable for parties who intend establishing themselves on Sooke Harbor to inspect the above Site without delay.

LOTS

In that valuable Town-site at Sooke known as

Thompson's Landing

No reserves of lots will be made, except of such that buildings have already been commenced upon.

All lots put up will be sold to the highest bidder.

Arrangements have been made by the proprietors of Thompson's Landing with the Agents of the San Francisco steamers to land direct at Thompson's Landing, should a sufficient number of California passengers offer.

It is well known that the nearest and best existing trail to Leech River goes from Thompson's Landing; and it is contemplated to cut a trail immediately to the North Forks, which can be rendered accessible at all seasons of the year.

Steamboats ply regularly every day and connect with Culverwell's and other pack trains to the mines.

From the fact that the overland trail is not a winter trail, the favorite route to the mines must be via Thompson's Landing.

The Town-site has been surveyed; the lines of the blocks are being cut, and the corner posts will be down in time to locate lots purchased at this sale.

Mr. Alfred Waddington having completed the erection of the commodious wharf at Thompson's Landing, will remain to assist purchasers in locating their lots.

Plans on view at the Auctioneers.

BRITISH COLUMBIAN FINANCES.—From an interesting tabular statement which appears in the Government *Gazette*, we glean the following figures in reference to financial matters in the sister colony : The total colonial revenue for the last year was £111,111 16, of which the customs yielded £76,639 2 11, port and harbor dues, £6,778 15 3 ; land sales, $5,681 16 10 ; miners' certificates and mining receipts, £8,716 2 5 ; trading and spirit licenses, £4,265 6 8 ; the balance being made up from sales of Government property, land revenue, rents, fees of office and miscellaneous receipts. The total colonial expenditure for the past year was £147,752 11 5, being £36,640 15 5 in excess of the revenue. Of this amount, salaries, fixed and temporary, with contingencies, consumed £28,590 19 6, roads, streets and bridges, £79,202 0 7 ; redemption of bonds, £11,700 ; transport, £10,531 13 2 ; works and buildings, £4,082 14 5 ; police and gaols, £3,324 15 7 ; conveyance of mails, £1,988 6 9 ; the balance consisting of interest paid, administration of justice, revenue services, rent, miscellaneous services, etc. The military establishment cost the colony the large sum of £20,243 15 9, chiefly for colonial pay and provisions and fuel ; against this there was received, principally on account of H. M. Government, £12,228 5 3. The amount received from loans, creation of bonds, and advances accounted for, was £156,518 14 1. The total expenditure for the year was £281,858 15 4, leaving a balance on hand of £9,838 8 10.

AN INQUEST was held yesterday morning in Esquimalt on the body of George Crute, carpenter's mate on H. M. S. Sutlej, who died suddenly on Sunday last. It appeared that deceased who, although a large stout man, had been subject to fainting fits, went out with some comrades to walk, and calling in at Bland's, had a glass of cider to drink. He shortly after complained of a pain in his bowels, and went out, returning in a few minutes and asking for a drop of ginger brandy, which he thought would do him good. After drinking it, he leant over the counter a moment, and then went out, when he immediately fell down. His comrades picked him up, and were horrified to see that he was dying. A vehicle was procured and he was at once conveyed to Esquimalt, but the poor man died before he could be taken on board his ship. The jury returned a verdict of "Death from a rupture of the pulmonary artery."

NO PILOTS AFLOAT.—Three English ships with valuable cargoes are now overdue at this port, and may be hourly expected, yet the pilot boat has been snugly moored opposite Lang's shipyard for the last four or five days, and the good ships if perchance they have reached the Straits, are left to the mercy of the winds and tides, to find their way in as best they may. This ought not to be the case ; if the pilots are dissatisfied with the requirements of the new bill let them say so, and let the matter be gone into at once, otherwise the loss of a fine ship and the serious injury of the character of our port may be the result. The gentlemen who form the Pilot Board are surely rather remiss in their duty when such a state of things is allowed to exist.

THE VOLUNTEER CONCERT. — If exertion tends to success, the concert to-night should be a brilliant affair, since the officers and members of the Victoria Rifle Corps have spared no pains in rendering all the arrangements as complete as possible. That they will have a large and respectable audience is certain, and it now only requires the vocal and instrumental performances to be in keeping with the labor bestowed in perfecting the arrangements to make the evening thoroughly enjoyable to all.

ANOTHER VACANT SEAT.—Mr. C. A Bayley, member for Nanaimo, informs us that he intends to resign immediately his seat in the House for that constituency, being unable from press of business to attend to his legislatorial duties. We trust that his constituents will accept his resignation graciously, and that another gentleman may be found with more leisure to attend to the interests of that important and flourishing town.

COLONIAL BARRISTERS' BILL.—Mr. DeCosmos has again brought before the House the bill to enable colonial barristers and attorneys to practise in the law courts of this colony. The absurd prohibition which has so long disgraced our statutes and insulted the intelligence of all our fellow-colonists in other lands will doubtless soon be removed by the passage of the bill.

STEALING CLOTHES.—A clean sweep of a quantity of clothing was made from the yard of Mrs. Estall, on McClure street, on Sunday night. The thieves are supposed to have been Indians, as a few articles dropped in their haste showed that they had taken the direction of Beacon Hill, where they doubtless had a canoe in waiting. Householders in the outskirts should keep a sharp look-out after anything of value exposed within reach of these prowling miscreants.

THE UNION QUESTION.—It will be seen from our parliamentary report that the important question of a union of the two colonies of British Columbia and Vancouver Island is again about to be brought prominently before the country. It is stated authoritatively that the two governors have direct instructions from the Imperial Government to do all in their power to bring about so desirable a consummation.

THE MOUTH OF THE FRASER. — The steamer Union, now lying in this harbor, has been chartered by the British Columbian Government to proceed to the mouth of the Fraser and replace the buoys which have shifted from their proper position. She will go up to-day.

VESSELS OUTSIDE.—A large full-rigged ship was seen outside yesterday afternoon. Pilot Pike went out in a small boat to board her, but she stood off towards the opposite shore, so that she could not be made out. A bark was also seen coming round Race Rocks.

LEGISLATIVE COUNCIL.—After the formal business of the opening of the two Houses of Legislature was disposed of yesterday by His Excellency the Governor, the Legislative Council met, and appointed a committee to draft an address in reply to the Governor's message.

THE ELECTIONS.—Writs will be issued today by the Speaker at the House calling for the election of members for the constituencies of Esquimalt Town and Victoria District.

The Murder of Mr. Duncan's Constables.

The following proclamation appears in the British Columbian Government *Gazette* :

"A reward of $250 will be paid by the Government of British Columbia upon and for the apprehension of Thomas Jackson, John Love and Samuel Howard, for each or for either of them, who were concerned in the murder near Fort Simpson, of certain Police Constables while in the execution of their duty on board the sloop Random, on the 18th August last."

By command.
CHARLES GOOD,
For the Colonial Secretary.

THE VACANT SEATS.—Dr. Dickson and Mr. J. T. Pidwell are energetically canvassing the voters in Victoria district. It is rumored that two other Richmonds will be in the field. Mr. Southgate, so far, has no opponent for the borough of Esquimalt, nor Mr. Cochrane for Metchosin and Esquimalt districts. A deputation of the friends of Mr. D. Leneveu waited on that gentleman yesterday, to request him to stand for this district, but Mr. Leneveu, as he has done before, declined the proffered honor. By the resignation of Mr. C. A. Bayley, a vacancy occurs in the representation of Nanaimo. Mr. Chas. W. Wallace is mentioned for the seat.

FROM SOOKE.—The steamer Caledonia arrived from Sooke last night with 16 passengers. The news from the mines continues most favorable; the miners are all at work and succeeding well. Diggings had been struck on the north forks of Leech, prospecting 5 cents to the pan. A number of Chinamen returned by the steamer bringing with them a considerable quantity of dust, taken from the lower part of Sooke river.

A SOOKE MINER.—A Mr. Hunt, who was one of the first to take up a claim on Leech river, and who was in town yesterday procuring supplies, states that he has averaged $8 50 per day for the whole time he has been at work. One day he took out $27. This is one of many similar cases which have come to our knowledge.

SALE OF GOVERNMENT SECURITIES.—The Government of British Columbia offer for sale by sealed tender, of bills to the amount of £20,000 of the £100,000 loan of 1864. The bills will be drawn on London payable at 60 days sight, and dated about 30th instant. Tenders not to be for less sums than £550.

A SAVING TO TRAVELERS.—We would draw the attention of travelers to and from the mines to Mr F. Williams' notice in our advertising columns. By taking advantage of this route a saving of perhaps three or four miles will be effected.

GOODS FOR SOOKE.—Mr. C. A. Bayley's pack train of eighteen animals, carrying 4000 lbs of goods, will start for Sooke to-day.

THE CITY COUNCIL held no meeting last night, there being no quorum.

POLICE COURT.

(BEFORE A. F. PEMBERTON, ESQ.

Monday, Sept. 9, 1864.

The Charge of Forcible Entry.

Mr. A. D. Bell appeared again before the Police Magistrate yesterday to answer the charge preferred against him by Mr. Charles Street of forcibly entering his premises on Government street.

Mr. Cary instructed by Mr. Copland appeared for the complainant, Mr. Ring and Mr. McCreight instructed by Mr. Green for the defence.

Charles Street, recalled and sworn, stated that the premises in question were still in the occupation of Mr. A. D. Bell, publisher and proprietor of the *Vancouver Times*, the name of the paper being painted on the window. Saw Mr. Bell come out of the office in the morning.

Cross-examined by Mr. Ring—I have the lease in my office ; there is no covenant for a guarantee in the lease. I did not require it. I looked upon Mr. Bell, if you wish me to state it, as an irresponsible man.

Mr. Selim Franklin proved that he saw Mr. Bell in the premises in the morning.

A long argument here ensued between Counsel as to the jurisdiction of the magistrate in the case, Mr. Cary having stated that he would ask for restitution from the Court. Mr. Ring and Mr. McCreight denied the right of the magistrate to exercise such power, which was the most arbitrary and authoritative that could be exercised. Mr. Ring contended that the complainant was the person who committed the forcible entry, if any were committed, as the evidence clearly showed that Mr. Bell was in possession, and quoted Russell on Crimes, Burn's Justice and other authorities, coupled with the testimony of Mr. Lelievre in support of this view, and further showed cause why the case should not be sent up for trial.

Mr. Pemberton informed the counsel that unless the prosecuting counsel showed very strong grounds for his application he should not consider the question of restitution.

Mr. Ring then called Mr. LeLievre, who was sworn and examined by Mr. McCreight—I was present on the Saturday when a conversation took place between Mr. Street and Dr. Trimble, and heard Mr. Street say in the disputed office in presence of Dr. Trimble that there was a person waiting outside who would give $10 more per month for the premises with a guarantee for the 8 months' rent. (Witness confirmed the statement of Dr. Trimble.)

Cross-examined by Mr. Cary—Was sure that Mr. Street said a party or person outside had offered him $10 a month. Mr. Street repeated it several times. He did not say parties. Did not know what he meant by

Mr. W. A. Harries examined, said—On Saturday week, I walked towards the office at present known as the office of the *Vancouver Times*. I saw Mr. Street standing with his back to the door. Mr. Bell and several other persons were in front. I heard something said about tender, and I moved on a few paces. On turning round I saw Mr. Bell put his hands against the door and push it with his to . I could not say whether he opened it, but I saw Mr. Street immediately raise his stick and strike Mr Bell a very severe blow on the head; Mr. Street hit him as hard as he could on the head with a stout walking stick ; Mr. Bell had only a light straw hat on; the blow seemed to stupify Mr. Bell for a moment, he was motionless for a time; Mr. Bell then grasped hold of him and wrested the stick out of his hands; the blow was severe enough to partially stun any man; in struggling they both got into the building ; I then rushed up to the door and on entering met Mr. Bell partly carrying and partly pushing Mr. Street out; I cannot say whether the door was open or shut before they disappeared into the building ; I did not think the blow was strong enough to open the door, and was surprised to see them disappear; there was no more noise than that of a foot against a board.

Cross examined by Mr. Cary—I did not see Mr. Bell collar Mr. Street before the blow was struck, but it might have occurred; as I turned round I saw Mr. Bell put his hands against the door and kick it ; Mr. Bell had both hands against the door at the time Mr. Street struck him.

Mr. Sebright Green—I am Mr. Bell's solicitor. I was witness to the transaction on Saturday week last. In the afternoon I went with Mr. Bell and Mr. LeLievre towards Mr. Street's office ; we met Mr. Street about two yards from his office. Mr. Bell tendered Mr. Street a sum of money (I think $55) for rent of the office now occupied by Mr. Bell. Mr. Street refused to take the money ; I then told Mr. Bell that he had better go and resume possession. Mr. Bell and Mr. LeLievre turned to go down Government street; Mr. Street crossed over Government in the direction of Fort street. I followed down Government street til I arrived at the COLONIST office, where I talked for a few moments to Mr. Harries. Whilst I was taking to Mr. Harries, Mr. Street hurried past me, and I turned to see where Mr. Bell was, and I saw him standing a few paces in front of the disputed office. Mr. Street rushed in between Mr. Bell and the door. Mr. Bell asked me whether he would be justified in using force to obtain possession of the premises. Mr. Street did not appear to be terrified at this. I said he had better not use force, as it would make a police matter of it at once. I then passed on five or six paces, and called Mr. LeLievre, to speak to him. I kept my eye on the door; I heard Mr. Bell and Mr. Street talking. I think Mr. Street said, " if you go in, you will go over me." I next saw Mr. Bell put his foot to the door, but was not in a position to see whether he opened it or not. Immediately afterwards I saw Mr. Street strike Mr. Bell on the head with a stick. A few moments afterwards they both disappeared into the doorway, and in a few moments more Mr. Street came out again, Mr. Bell following, with a broken stick in his hand. I had previously told Mr. Bell that he had legal possession of the property.

By the Court—When I told Mr. Bell to resume possession he was temporarily out of possession. No one was just then in possession.

W. H. Parsons—I remember Mr. Street and Mr. Bell being in Mr. Culverwell's office on Thursday week ; a question was asked about the amount of rent. Not a word was said about a guarantee. Mr. Street offered to let the disputed premises to Mr. Bell for $65 ; Mr. Bell objected, saying it was too high. Mr. Street consented to take $55.

By Mr. Cary—I heard no mention of a lease or of the term of letting. I can't say that the agreement was completed as I did not hear Mr. Bell say that he would take the premises. I believe I heard all that took place.

George Cruickshank, sworn—I happened to overhear a conversation between the parties in front of my office which is next to the disputed office. Mr. Street was standing in front of the door refusing admittance. Mr. Bell tendered Mr. Street an amount of gold which he said was the rent of the disputed premises. Mr. Street refused to receive it, and intimated that Mr. Bell could not enter except by force. I believe the parties clenched. Mr. Bell applied his foot to the door to force it in Before he did so, Mr. Street said, " Do you intend to force open my door?" Mr. Bell replied, " Yes, I do." Mr. Street said, " Then I'll break your head," and he did it. A scuffle took place and the parties disappeared inside the doorway. Mr. Bell remained in possession.

This concluded the evidence.

Mr. Cary applied to the Bench for a jury to decide whether a forcible entry had been made or not. The learned gentleman quoted at length from Archbold's Criminal Law.

Mr. Ring opposed, and proceeded first to show cause against the granting of a writ of restitution, but on being informed by Mr. Cary that he was not now contending for the writ but for a jury, Mr. Ring argued that the application could not be granted inasmuch as it was a pre requisite that the Justice should have first viewed the premises. He quoted authorities to show that where there appeared to be doubt the Justice should dismiss the complaint and leave the parties to indict before the higher court. He asked the bench to act in accordance with that authority.

Mr. Pemberton said that Mr. Cary had previously intimated that he should raise the question of equitable title, but not having done so he should dismiss the application for a jury, but the charge was a serious one and not in his power to deal with, he must, therefore send the case up to a Grand Jury. Bail was fixed at £100 with two sureties in £50 each.

OPENING OF PARLIAMENT.

The Legislature was formally opened yesterday, at one o'clock, by His Excellency the Governor, in the presence of a numerous assemblage. His Excellency was received at the doors of the Council Chamber by a guard of honor from the Victoria Rifles, under the command of Lieut. Pearse, the band playing the National Anthem. The members of the Legislative Council were in waiting in the Chamber, and on the entrance of the gentlemen of the Assembly, His Excellency proceeded to read the following :

Honorable Gentlemen of the Legislative Council, and Gentlemen of the Legislative Assembly.

I have called you together for the consideration of subjects recently brought under your notice, and which have acquired additional importance since I last addressed you.

A despatch from the Governor of British Columbia will be laid before you, informing me that he has been called upon by Her Majesty's Secretary of State for the Colonies, to report upon a suggestion made by the Legislative Assembly of Vancouver Island, that the two English colonies west of the Rocky Mountains, should be united under one governor, and waiting early communication with me on the subject. It is desirable, therefore, that I should be in possession of the views of the Legislature of this Colony, to enable Her Majesty's Government to consider them in connection with the report of the Governor of British Columbia and my own.

The important subject of schools for the training of children whose parents are unable to afford them a high class education, will doubtless receive your careful consideration.

The relations between white men and the Indian tribes, become daily more complicated, affording indications of future difficulties, which it will be well to obviate by the adoption of timely precaution, and suitable laws.

The early consideration of an Incorporation Act for the City of Victoria, is pressingly necessary in a moral as well as a sanitary point of view. The city posesses ample resources both in property and intelligence, for the purpose of municipal government, with which I think it is so desirable to invest it, and I feel confident that the local knowledge of the Legislature will enable them to deal with this question speedily and satisfactorily.

The postal communication within and without the Colony demands earnest attention. I propose to submit measures for the better conduct of this department at an early period.

Gentlemen of the Legislative Assembly

It is necessary for the regular administration of the Finances of the Colony that the annual estimates should be agreed to prior to the period from which they are to take effect. I will therefore have them submitted for your consideration as soon as circumstances will permit.

Honorable Gentlemen of the Legislative Council and Gentlemen of the Legislative Assembly :

I beg to assure you of my earnest desire to co-operate with you in all measures calculated to promote the public good, and the prosperity of the people.

His Excellency then took his departure, the members of the Legislature and spectators rising as he passed out, and the guard of honor saluting with very good effect.

HOUSE OF ASSEMBLY.

Monday 1:15 p.m.

The House met after the opening of Parliament—Present. The Hon. Speaker and Messrs. DeCosmos, Franklin, Carswell, Dennes, Mr. Cruickshank was also inside the bar.

BARRISTERS AND ATTORNEYS BILL.

Mr. DeCosmos moved the first reading of a bill to enable colonial Barristers and Attorneys to practice in the law courts of this colony.

Seconded by Mr. Carswell, and carried.

The Speaker read the address of His Excellency to the Legislature.

UNION DESPATCHES.

The Speaker read the following communication from His Excellency.

VICTORIA, 12th September, 1864.

To the Honorable the Speaker and Members of the Legislative Assembly :

GENTLEMEN,—

I have the honor to transmit the copy of a despatch received from the Governor of British Columbia on the subject of union between Vancouver Island and that colony.

I have the honor to be,
Gentlemen,
Your very obedient servant,
A. E. KENNEDY,
Governor.

NEW WESTMINSTER, 31st August, 1864.

SIR,

I have the honor to inform you that I have received a despatch from the Secretary of State directing me to report upon a suggestion made by the Legislative Assembly of Vancouver Island, that the two English colonies West of the Rocky Mountains should be united under one Governor though with some distinct administrative Departments.

The Secretary of State expresses a wish that before sending in my report I should consult freely with your Excellency. As the proposal for union originated with the Legislature of the colony under your Government, I beg leave to know if I may soon expect to receive any communication from your Excellency on the subject.

I have, &c., &c.
(Signed) FREDERICK SEYMOUR.

REPLY TO THE SPEECH.

Mr. DeCosmos moved that a committee be appointed to draw up a reply to the address.

The Speaker appointed Messrs. DeCosmos, Franklin and Carswell, to report to-morrow.

VACANCIES IN THE HOUSE.

The Speaker announced that the constituencies of Esquimalt town and Victoria district were vacant.

Mr. DeCosmos moved that the Speaker do issue writs for the election of two members to supply the vacancies. Carried.

SMALL DEBTS BILL.

Mr. Dennes gave notice of a bill for the more easy recovery of small debts and demands.

BARRISTER TO ASSIST.

Mr. DeCosmos gave notice that he would ask the Speaker to appoint a barrister to assist in drawing up the bills to come before the House.

INCORPORATION ACT.

Mr. DeCosmos gave notice that at next meeting of the House he would ask leave to introduce a bill to incorporate the city of Victoria.

House adjourned till to-morrow (Tuesday) at 3 p. m.

OPTICAL PHENOMENON.—The Stockton *Independent* is responsible for the following : An old resident of Calaveras county informs us of one of the greatest natural wonders in that county that we ever heard of. It is well known that in California the atmosphere is clearer and purer than in any other part of the world ; that objects can be discerned at a greater distance, with the naked eye, than in any other portion of the globe. Thus we know that on a clear day Mount Diablo is plainly visible from Big Oak Flat, Tuolumne county, without the aid of a glass, and that from a point just west of Colusa, so as to clear the timber, the snow clad summit of Mount Shasta can be easily viewed with the naked eye, at a distance of not less than one hundred and twenty miles by an air line. But the wonder of which we are about to speak is fully equal in its rarity, if not in stupendous grandeur, to mount Shasta, Yosemite, or the Big Trees It is a deep gorge, or rather basin of the mountains, about three miles from Rich Gulch, Calaveras county, where the traveler, after entering into the depth of the hollow, finds himself shut in by high and sterile hills, and the rest of the surrounding world is shut out from his gaze. But see, a broad bay is visible and the navies of France, England, Russia and America are each discernible among the placid hulls that float on its placid waters. A city, overhung by high and volcanic-looking hills, rears many a high-turreted wall and palatial dome in token of its prosperity, and the smoke of a hundred factories overhangs the crowded city like a mantle of Tyrian purple. This city is San Francisco, the Queen of the Pacific, and it can only be seen from about three o'clock p. m. until sunset on a winter's day, when the sun is bright and no sea-fog obscures the vision. But by what name shall we style this singular advertisement of nature? It certainly can be no mirage, for there is the real bay of San Francisco with Goat Island and Angel Island plain in view. It must be a refraction caused by the sun when it assumes its occident position. Will some son of science explain the wonderful and delightful, but mysterious illusion?

HOW A STORY IS PEPPERED FOR THE FRENCH MARKET.—The Paris *Moniteur* is so hard up for news that it gives currency to the following monstrous story :—The ruins of the magnificent abbey of O'Connor, of which Sligo is so proud, have just witnessed a horrible scene. An Englishman, Sir William P——, had been insulted in a *cafe* by a young Irishman of good family. They fought on the following morning in the ruins of the abbey, each armed with a sword, pistols and a dagger. After the second shot Sir William P—— fell; a bullet had entered his thigh. The seconds then interfered, but Sir William begged them to seat him on a stone, and to let him continue the duel with swords. His antagonist declined a duel under such circumstances, but Sir William maddened him, " Because you are as cowardly to-day as yesterday." The combatants fell to, and Sir William P——, seated on his stone, plunged his sword into the Irishman's breast. Nothing daunted, he cried out, " It is nothing ; I have still strength to tear you to pieces with my teeth, and devour you." He set upon his foe with his dagger, and, thus armed, the two rolled to the ground, fearfully hacking each other with their poignards, and tearing each other with their teeth. At last, the seconds tore them asunder. They found that Sir William had received seven stabs, in addition to the bullet wound in his thigh. He was severely bitten about the arms, hands and face ; his adversary had bitten out a huge mouthful from his right cheek. The other man was much gashed, and horribly mutilated by Sir William's teeth. The pair were carried off to the hospital at Sligo, each hoping to recover, that he might renew the combat.

A letter from Eupatoria, Crimea, contains the following : "The Jewish community of the Caraimes at this place has just received a letter from Jerusalem, announcing that in Irak Arabi, the Sennaar of the Bible, in the South of Mesopotamia, near the site of ancient Babylon, seventy descendants of the Israelites of antiquity have recently been found, among whom is a descendant of Joachim, King of Judah, who was carried into captivity by Nebuchadnezzar II., King of Babylon, about six hundred years before Christ. This person's lineage is said to be certified by authentic documents in his own possession. The other Jews belong to the tribe of Levi These seventy persons live in the midst of different hordes and tribes, who use threats and bribes to induce them to abjure their religion. In consequence of this persecution the Jews have sent two deputies to the Caraime Institutor, Abraham Fikrovitch, who is now at Jerusalem making archæological researches, to solicit his intervention with his Caraime co-religionists, in order to obtain thirty thousand piastres (six thousand francs), to enable them to emigrate to Jerusalem and settle there. They state that no further aid would be required, as they are all, even the women, able to earn a livlihood by making Persian carpets.

A new story has been set afloat about Lamartine. It is said that the poet, wanting an umbrella, sent word to an umbrella maker to send him a few to choose from. The latter at once sent two dozen umbrellas to the poet's house. M. de Lamartine happened to have company to dinner, and as it was raining, he gave each guest an umbrella, and was astonished at having to pay some time afterwards, a bill of twenty-four pounds for the twenty-four umbrellas. It is probable that the story, whether strictly true or not, implies the explanation of a good deal of the pecuniary difficulty which has so painfully darkened the close of the poet's career, his lavish generosity and lordly inattention to economic detail, having done much towards bringing him into a position of harassing pecuniary embarrassment.

THE NEW CONFEDERATE CRUISER RAPPAHANNOCK.—At last advices this vessel was under strict surveillance by the French and English authorities at Calais, France. They refuse to permit her to leave. For some time past, the Kearsarge has been cruising off Calais with the hope of capturing the Rappahannock. The Confederate at present is not in a position to cope with her would-be antagonist, as she has neither guns nor ammunition on board. The captain of the Rappahannock would, however, if the authorities granted permission, leave the port and take his chance of eluding the vigilance of the Federal. The writer states the Confederate is much the fastest vessel, and that if once she got ahead of the Kearsarge she would be perfectly safe. The Rappahannock is fitted with a fine pair of engines of 350-horse power, four fighting boilers and two dispatch boilers. She has on board at present about one hundred and thirty men.

A VALLEY OF DEATH IN JAVA.

The destructive agency of carbonic acid gas on animal life is well exemplified in certain places where large quantities are evolved from the earth. The most striking instance, however, is the celebrated valley of Java, which, if any animal enters, he never leaves. The following interesting account is given by an eye-witness:—"We took with us two dogs and some fowls to try experiments in this poisonous hollow. On arriving at the foot of the mountain, we dismounted and scrambled up the side, about a quarter of a mile, holding on by the branches of trees When within a few yards of the valley, we experienced a strong, nauseous, suffocating smell, but on coming close to its edge this disagreeable odor left us. The valley appeared to be half-a-mile in circumference, oval, and the depth from thirty to thirty-five feet ; the bottom quite flat, no vegetation ; strewed with some very large (apparently) river stones, and the whole covered with skeletons of human beings, tigers, pigs, peacocks, and all sorts of birds. We could not perceive any vapor or any opening in the ground, which last appeared to be of a hard, sandy substance. It was now proposed by one of the party to enter the valley, but at the spot where we were this was difficult, at least for me, as one false step would have brought us to eternity, seeing no assistance could be given. We lit our cigars, and with the assistance of a bamboo, we went down within eighteen feet of the bottom. Here we did not experience any difficulty in breathing, but an offensive, nauseous smell annoyed us. We now fastened a dog to the end of a bamboo, eighteen feet long, and sent him in. We had our watches in our hands, and in fourteen seconds he fell on his back. He did not move his limbs or look round, but continued to breath eighteen minutes. We then sent in another, or rather he got loose and walked in to where the other dog was lying. He then stood quite still, and in ten minutes fell on his mate, and never afterwards moved his limbs ; he continued to breathe seven minutes. We now tried a fowl, which died in a minute and a half. We threw in another, which died before touching the ground. During these experiments we experienced a heavy shower of rain ; but we were so interested in the awful sight before us that we did not care for getting wet. On the opposite side, near a large stone, was the skeleton of a human being, who must have perished on his back, with his right hand under his head. From being exposed to the weather, the bones were bleached as white as ivory. I was anxious to procure this skeleton, but an attempt to get it would have been madness."—*N. Y. Observer.*

THE PRIZE RING.—THE MATCH BETWEEN MACE AND COBURN. The third deposit of fifty pounds a side for this match was duly tabled on Tuesday evening, July 5, at Harry Brunton's, George and Dragon, Beech street, Barbican, in the presence of a respectable muster of Harry's friends. The next deposit will be due on Tuesday week, and is to be made at some house to be named by Jem Mace. Coburn is still in Ireland, and he writes to us that he is deeply grateful for the kind reception he meets with at every turn. Nat Langham is at present with him, and is canvassing the pros and cons in the sister isle as to the chances of bringing off the match without interruption. An Irish paper states that Joe is a native of Middletown, county Armagh, which he left when twelve years of age.—*Bell's Life in London*, July 9.

A REBEL EPIGRAM.—The following lines were found in a rebel soldier's note book, on the camping ground near Breckinridge's headquarters, before Washington, July 17, 1864 :

Quoth Meade to Lee—
Can you tell me,
In the shortest style of writing,
When people will
Get their fill
Of this big job of fighting ?
Quoth Lee to Meade—
Why, yes, indeed,
I'll tell you in a minute :

Are made to enter in it.

SPRING RIDGE WATER WORKS CO. LIMITED

CARD TO THE PUBLIC.

On behalf of the Spring Ridge Water Company and Coe & Martin I beg to make a brief explanation of the reasons why the supply of water has not, lately, quite met the demand.

It is but a few weeks since the Spring Ridge Water Company bought out Coe & Martin. The company immediately commenced, and have urged forward with all possible dispatch, works, which would have been finished months ago by Coe & Martin if they had had the means, or the encouragement their enterprise deserved. The extreme drought of this season has had influence upon the springs, and the supply is not so abundant as is usual at this period of the year. In order to increase the area from which the water is drawn, several acres of land, forming a connection around Spring Ridge, have been bought and leased by the company, and by means of wells, a flume, and an open cut, about 1,000 feet in length, basins of water, hitherto entirely unconnected, are now united, and the whole will in a few days be ready for the use of the city. But owing to the late day at which the company got to work and the extreme dryness of the season, it has been temporarily necessary to send into town a portion of the water from the "open cut," *now being made*, without allowing the sediment sufficient time to settle. This water in passing through the only filter the company yet possess, leaves a film of fine clay over the surface of the bed, which retards the passage of the water. To remedy this, the sand has been spaded over two or three times a day, and thus it has not acted so perfectly as it should, but allowed the water to pass with less than its usual purity.

Another reason why the scarcity of water is so much felt, is that a large number of wells have become dry throughout the city, so that nearly fifty per cent more water is now required to be drawn from the springs than at other times.

The Sooke excitement has had the effect of taking away some of the best watermen employed by the company, and of causing changes which have occasioned some unavoidable neglect and annoyance.

I hope that this explanation will satisfy the citizens of Victoria, that it is through no fault of the present company that water has not been more abundant. If the Spring Ridge Water Company had not undertaken the present works, it is undeniable that very much greater inconvenience must have ensued from scarcity of water. The well which supplied the city last year has of late yielded but a small portion of the water sent into the city. If Coe & Martin had not been refused a charter last spring, the works now under way would have been finished months ago, and our citizens would not have had any ground for complaint.

If there should be some short-comings for a few days more, I trust the community will take into their generous consideration the above-mentioned circumstances. The public may rest assured that no effort will be spared by the company which shall be necessary to secure a full supply of pure water at the earliest possible day.

FARM FOR SALE.—The attention of persons desiring to secure a fine farm and comfortable homestead, in the rich rural district known as the Willamette Valley, Oregon, is directed to the notice of sale in our advertising columns.

FINE AND HEAVY CUSTOM MADE CLOTHING for City Trade. The best tailors employed at A. J. Brunn's Establishment. Fine White American Shirts and Collars, Cravats, Gloves, Hosiery, Hats and Caps, etc., of the latest styles, always on hand. A.J BRUNN, Government street, next to the Bank of British Columbia.

HOLLOWAY'S OINTMENT AND PILLS.—Lumbago, Derangements of the Kidneys, Rheumatism, Tic-Doloreux.—All excruciating pains of the muscles and nerves are relieved with astonishing rapidity, by the use of this extraordinary Ointment. The affected parts, previously fomented with warm water, have only to be briskly rubbed with this soothing Unguent to obtain instant ease. Whilst the Ointment cures the local ailment, the Pills remove the constitutional disturbance, and regulate every impaired function of every organ throughout the human body. The cure is neither temporary nor superficial, but permanent and complete, and the diseases rarely recur, so perfect has been the purification performed by these searching, yet harmless preparations.

STRENGTHEN THE SYSTEM.—The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

DR. HOSTETTER'S STOMACH BITTERS.

Debility, from whatever cause arising, may be cured; in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.—Sold by Druggists and dealers everywhere.

THE PROGRESS OF DENTAL SCIENCE.—No department of practical science or of operative art has made such signal progress within the last few years as that connected with the preservation, beautifying, and restoration of the teeth. Not only do we observe the success with which modern manipulation has remedied and adverted all kinds of malformations in the young, but we see decay arrested in the outset, all its evil consequences securely prevented, and that most provoking of pains, the toothache, provided against by the simplest mechanical means and without one of those mischevious drugs which our forefathers have been accustomed to fly to in their agony, to the utter destruction of what remained sound. We owe a large share of modern improvements to MESSRS. GABRIEL, the celebrated Dentists of London, Liverpool, and Birmingham, who show some exquisite specimens of workmanship at the International Exhibition. The white enamel stopping is proved to be faultless, whilst the most beautiful imitation of the natural gums and teeth (in the complete or partial sets), is to be found in their new patent Osteo-Eidon—the only substance which is entirely free from noxious elements (coloring matters) and of which the adhesion is at the same time secured without any mechanism whatever. We are glad to hear that MESSRS. GABRIEL very courteously throw their laboratories open to public and gratuitous inspection.—As may be seen by reference to our advertising columns, Messrs. Gabriel supply Artificial Teeth and Gums on their patented system, irrespective of distance or climate.

DR. J. COLLIS BROWNES
Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M R C S L., (ex Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

From W. Vesalius Pettigrew, M D., Hon. F R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Chlorodyne—Vice Chancellor Sir W. P. Wood, on Jan. 11, pronounced "that it is clearly proved before the court that Dr. J. Collis Browne was the original Inventor and discoverer of a remedy well known as Chlorodyne, and so highly appreciated in India, China, &c."

Extracts from the General Board of Health London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq , late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

Caution--Chlorodyne--In Chancery.

It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital Physicians of London that Dr. J. Collis Browne was the discoverer of Chlorodyne ; that they prescribe it largely, and mean no other than Dr. Browne's See Times, Jan 12, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE. No home should be without it. Sold in bottles, 1s 9d and 4s 6d, by J. T. Davenport, 33 Great Russell street, London, W. C., sole manufacturer. Observe particularly, none genuine without the words " Dr. J Collis Browne's Chlorodyne" on the Government Stamp. je24 1yw

THIS WORLD RENOWNED MEDICINE, which has obtained such celebrity in all parts of the globe, in the cure of Cough, Asthma, Hoarseness, Incipient Consumption, and other affections of the Chest and Pulmonary Organs, is strongly recommended to all suffering from any of the above disorders, as One Trial will be sufficient to prove their undoubted efficacy, being frequently used under the recommendation of the most eminent of the Faculty.

IMPORTANT TESTIMONIAL.

MELBOURNE, Port Philip.

DEAR SIR,—I duly received per Maitland the case of Lozenges, and have much pleasure in saying that they have met with a ready sale,—therefore, send me now the value of ten pounds, that is, double the last sent, packed in two cases with Tins, &c., as before.

The Lozenges require only to be tried, and I am sure the sale will be immense. I am not an advocate for Proprietary Medicines in the general way, but assure you that the Lozenges have done so much good in almost every case in which we have recommended them, that I believe them better adapted to this climate than anything else we have seen used.

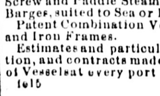

Believe me, dear Sir, yours faithfully,

Thompson's Landing,

Mouth of Sooke River.

THE PUBLIC ARE RESPECTfully informed that the Government Surveyor having completed the boundaries of the above Town Site, the plans and maps will be ready in a few days, when a limited number of eligible lots will be offered at private sale, on advantageous terms.

It is believed that Thompson's Landing offers superior advantages as a Town Site. Situated at the mouth of Sooke river, it is sheltered from the high winds which frequently render other points in Sooke Inlet insecure; it is connected with the new Government trail, and is the shortest and most expeditious route to Leech river.

Steamers and other vessels can, drawing eight feet of water at low tide and thirteen feet at high tide, discharge freight and passengers at all times at the wharf of the company. In addition to which the erection of a very substantial new wharf is under contract, and will be soon completed.

A pack train of animals is now on the spot ready to carry freight daily at low rates direct from Thompson's Landing to the Forks, supplying the different camps on Sooke as well as Leech river.

The position of Thompson's Landing as a supply point to the already discovered gold fields, is manifestly unequalled; but in addition to this, no other location is as available as Thompson's Landing to the numerous auriferous creeks and rivers believed to exist east of San Juan Harbor. As a place of business, this Town must rapidly attain to considerable importance, and for residences it is one of the most picturesque spots on the Pacific Coast. It is healthy, the soil is good; it is the central point of a good agricultural country; and there is excellent water sufficient to supply a large population.

Already the Town Site has a busy, bustling appearance, and it is confidently believed that every description of industry would immediately find profitable employment.

Persons desirous of securing eligible plots for business purposes will have priority of choice by registering their names with either of the undersigned, or with P. M. Backus, or Charles Street.

The upset price is not yet fixed, but will be made as low as possible, and every inducement will be offered to parties wishing to establish a business at Thompson's Landing.

The Committee of Management of the Thompson's Landing Company confidently predict that purchasers of lots will secure to themselves an early and substantial profit on their investments.

J. J. SOUTHGATE, President.

Kennedy, Sooke.

IT IS MOST PROBABLE THAT A steady passenger and goods traffic will spring up between some convenient spot on Sooke Harbor and the Forks of the Leech River.

The town site named Kennedy, at the place where the Government road now fast approaching completion touches the shore, combines every advantage of geographical position.

As the road from Sooke to the Mines begins here, there is no need for transhipment, and the land travel to the Forks is shorter from this than from any other accessible point of the Harbor.

There is deep water close in shore, and at all times of the tide vessels of large size can come up to which a substantial wharf is now in process of erection will afford every facility.

The road from Victoria to the Mines via Sooke, passes within a hundred yards of the wharf.

The adjacent land is level, dry, and very fertile. There is a never failing stream of pure water close at hand, the underlying sandstone and conglomerate promise it could be found at Sooke. It will be here.

Lots can be purchased or leased on very easy terms by application to

DR. HOSTETTER'S

STOMACH BITTERS.

THE OPERATION OF THIS PALAtable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

ALL CURES MADE EASY!!

—BY—

Holloway's Ointment.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage: the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach; consequently in many cases time is required to purify the blood which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps and all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat. This course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula, or King's Evil, and Swelling of the Glands,

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver stomach and bowels being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Mosquitoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scalds	Elephantiasis	Rheumatism	Wounds
			Sore Nipples
